TalkinTurkey

Three-Month Program
abbreviated version of the full program

If a support person or short-termer is wanting to learn some "Survival Turkish", they can use Stage 1 of the full program.

Books and Materials
They will still need all of the books for the Basic Kit except Lewis' *Teach Yourself Turkish* (see the *Books and Materials* file, under *Getting Started*). The *LAMP* book is optional, depending on how much other instruction they will receive about setting up, taping and practicing drills and exercises.

Look in the *How to Put the Printed Manuals Together* file (under *Getting Started*) for instructions about printing and assembling the manuals. You may want to buy a thinner binder for the *General Resources,* depending on how many of the optional files you choose to print.

- *from the **Three-Month Program** folder:*
  - Title Pages and Table of Contents (includes a title page for *Kickstarting*)

- *from the **Turkish Language Program** manual:*
  - Introduction
  - Stage 1
